PAZLESTINE

(Palestine, Peacetime)

One day after another

see it

It's been too many years now

since I first saw it!

From Sabra and Chatila.

One day after another,

One day after another,

Young children an adults

women and men

battling battling battling

Before the tanks

without combat.

One day after another,

One day after another,

Fragile bodies against

bodies of steel

Slings against

planes

A people against

an army

David against

Goliath!

One after another
 they
 fall
 the best
 selectively,
murdered.

One after the other,
One day after another,

Irredeemable terrorists face
 the remedy of the terrorists

Child bombers face
 the bombs which kill children

Militiamen dead
 so as not to die.

One after another,
One after another,

Dripping, daily,
on the head of the hypocrisy
 of the West.

One day after another,
One day after another,

Dripping, daily,
on my head, on my head.
