ANEXO 4

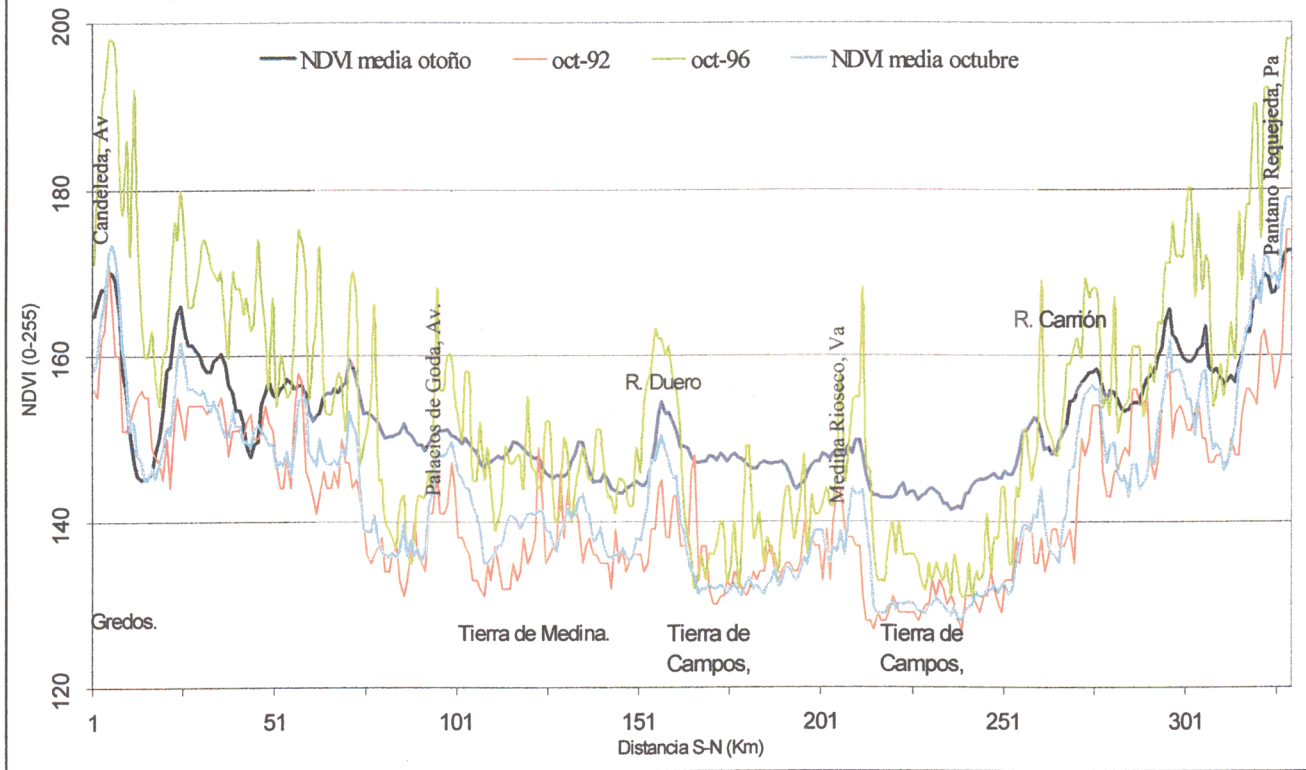

ANEXO 4

Matrix of correlation coefficients for NDVI87m bands. The table is a large grid with columns labeled 1 through 87 and rows labeled 1 through 87. Each cell contains a numerical value representing the correlation between two bands. The diagonal elements are all 1.000. The matrix is symmetric, with values for (i,j) equal to values for (j,i). The values range from approximately -0.4 to 0.9. The table is divided into three sections by the section headers at the top.

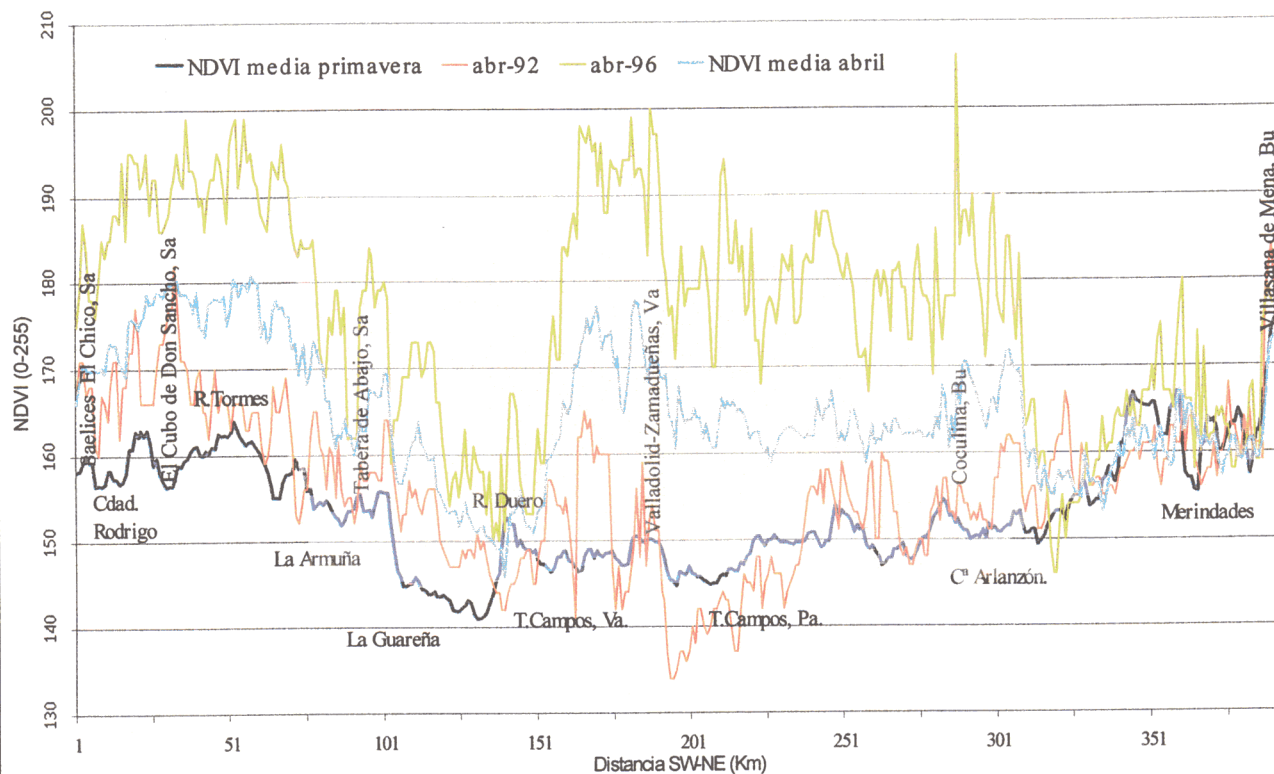

**Promedio del NDVI. Trimestre otoño. Transecto S-N.**
