

The screenshot shows the CAB Direct website with a green header. The logo 'cabdirect' is on the left, and the CABI logo with 'www.cabi.org' is on the right. Navigation links include 'About CAB Direct', 'Tell us what you think', and 'Contact Us'. A sidebar on the left contains 'Subscription Information' for 'Univ Complutense De Madrid' and 'MyCABDirect' options. The main content area features the tagline 'Gateway to the world's applied life sciences', a search bar with 'enter search terms', and a 'search' button. Below the search bar is an 'Advanced search' link. The 'About CAB Direct' section states there are 8,466,209 records, last updated on June 12, 2009. The 'Inform' section describes the platform's expertise. A 'Featured' section lists resources like 'CAB eBooks', 'Internet Resources', 'Compendia', and 'Full Text products'. The browser's address bar shows 'Internet' and a 100% zoom level.

Small Animal – Respiratory Disease

## HOW I TREAT ANIMALS WITH PULMONARY THROMBOEMBOLISM USING HEPARIN

Lesley G. King, MVB, DACVECC, DACVIM  
School of Veterinary Medicine,  
University of Pennsylvania, Philadelphia, PA

### PULMONARY THROMBOEMBOLISM

#### Etiology

Recognition and awareness of pulmonary thromboembolism has increased dramatically in the last few years. Thrombi may develop as a result of a combination of two or more of the following processes: 1) hypercoagulability, 2) vascular endothelial damage, or 3) abnormal blood flow patterns or blood stasis.

Vascular endothelial damage is an integral part of sepsis as a sequela of systemic inflammatory response syndrome (SIRS). Diffuse vascular damage occurs frequently as a consequence of a variety of inflammatory disorders, such as sepsis or pancreatitis, or immune-mediated diseases.

Definitive diagnosis of pulmonary thromboembolism is made by selective angiography. Although selective angiography of the pulmonary artery can be performed using plain radiographs, it is invasive because of the need for catheter placement in the pulmonary artery. Instead, CT angiography, although more expensive, provides improved imaging of clots and is less invasive because the contrast medium can be injected through a peripheral vein. Thoracic CT also allows imaging of the lung parenchyma which can provide further diagnostic information. Unfortunately, CT is expensive and not always available, and does require anesthesia, which increases the risk in these hypoxic patients. Alternate imaging techniques are also possible. The finding of abnormal perfusion on scintigraphic ventilation/perfusion scanning is also strongly suggestive, but not diagnostic, of thromboembolic disease.

### TREATMENT OF PULMONARY THROMBOEMBOLISM

#### Supportive Care

If pulmonary thromboembolism is suspected, several potential therapies may be attempted. Aggressive

Small Animal - Respiratory Diseases

**RESPIRATORY INFECTION IN PEDIATRICS PATIENTS**

Elizabeth Rozanski, DVM  
Diplomate ACVIM (SA) and ACVECC  
Cummings School of Veterinary Medicine  
Tufts University, North Grafton, MA

Infectious diseases of the respiratory system are common in small animals, particularly the pediatric patient. The most commonly observed infectious diseases include feline upper respiratory tract infections, tracheobronchitis, and pneumonia. It is important to be vigilant, as occasional other conditions may mimic pulmonary infection, including diaphragmatic hernia, congestive heart failure and pyothorax. Most treatment is supportive.

**CANINE INFECTIOUS TRACHEOBRONCHITIS/ PNEUMONIA**

puppy, as well as practical constraints, such as a hospital staffing, isolation facilities, and owner finances. Owner should be advised as to the unpredictable nature of pet stores in helping either finance hospitalization or return the puppy's purchase price. Most clients grow very fond of individual puppies very rapidly, and are often reluctant to return them to suboptimal environments. However, the hospitalization costs for such puppies can be significant, particularly if oxygen or intensive nursing care is required. The primary therapy focuses on supportive care, including fluids (subcutaneously or intravenously), antibiotics, and monitoring appetite and blood glucose levels. Nebulization and gentle coughage may be very helpful in clearing infection. Antibiotic choices are usually empiric, even if a tracheal wash is performed, it is several days until bacterial culture and sensitivity data are available. Antimicrobials with good activity against *Bordetella* include aminoglycosides, fluoroquinolones, chloramphenicol, trimethoprim-sulfa and tetracyclines. Systemically ill puppies should receive acetaminophen

4 Emergency management of airway obstruction. Rozanski, E.; The North American Veterinary Conference, Gainesville, USA, **Small animal and exotics**. Proceedings of the North American Veterinary Conference, Volume 22, Orlando, Florida, USA, 2008, 2008, pp 1466-1467

The screenshot displays the CAB Direct website interface. At the top, the 'cabdirect' logo is on the left, and the 'cabi' logo with 'www.cabi.org' is on the right. Below the logo, there are navigation links: 'Home', 'Help', and 'Thesaurus'. A search bar contains the query: 'do:(small animal AND exotics) AND author:(rozanski) AND yr:[2005 TO 2009]'. A 'search' button is to the right of the search bar. Below the search bar, there is a link for 'Advanced Search'.

The main content area is titled 'Search results:' and indicates 'returned 9 results'. There are two sections for 'Related Searches for exotics introduced species' and 'Related Searches for animal animals'. Below these, there are filters for '1 to 9 of 9 results' and 'Show me: most relevant + most recent'. A dropdown menu shows '10 Results per page'. There is a 'Select All / None' option.

The search results list three items, each with a checkbox and a 'View Abstract' link. The first item is: '1 Effective oxygen support. Rozanski, E.; The North American Veterinary Conference, Gainesville, USA, Small animal and exotics. Proceedings of the North American Veterinary Conference, Volume 22, Orlando, Florida, USA, 2008, 2008, pp 1468-1469'. The second item is: '2 Acute and chronic disease of the pleural space. Rozanski, E.; The North American Veterinary Conference, Gainesville, USA, Small animal and exotics. Proceedings of the North American Veterinary Conference, Volume 22, Orlando, Florida, USA, 2008, 2008, pp 1463-1465, 6 ref.'. The third item is: '3 Respiratory infection in pediatrics patients. Rozanski, E.; The North American Veterinary Conference, Gainesville, USA, Small animal and exotics. Proceedings of the North American Veterinary Conference, Volume 22, Orlando, Florida, USA, 2008, 2008, pp 1463-1465, 6 ref.'. Each item has a 'View Full Text' button.

On the right side of the page, there is a 'Tools' section with several options: 'Save this search', 'Create an email alert', 'Save selected in MyCABDirect', 'Search History', 'Print selected records', 'Email selected records', and 'Download Citations'. A red arrow points from the 'Download Citations' option to a red box that highlights the 'Download Citations' button in the search results list. The red box contains the text: 'Seleccionamos los artículos que nos interesan y pinchamos en **Download Citations**'.

At the bottom of the page, there is an 'About CAB Direct' section with the text: 'Over 8 million bibliographic and full text applied life science articles hand picked by our team of experts and updated weekly.'

# Utilidades: descargar citas

The screenshot shows the CAB Direct website interface. At the top left is the 'cabdirect' logo. To the right is the CABI logo with the text 'provided by www.cabi.org'. Below the logo is a navigation menu with 'Home', 'Help', and 'Thesaurus'. A search bar contains the text 'enter search terms' and a green 'search' button. Below the search bar is the 'Download Citations' section, which includes a link to 'Advanced Search', a 'Return to previous page' link, and a 'Format:' section with three radio button options: 'Citation Only', 'Citation + Abstract', and 'Full Record'. The 'Full Record' option is selected. A 'Submit' button is located below the radio buttons. A red box highlights the 'Submit' button, and a text box next to it says 'Elegimos el formato de la cita y pinchamos **Submit**'. At the bottom left, there is a footer with 'Technical Info | Links | Privacy Policy | Terms and Conditions' and '©2009 CABI'. At the bottom right, it says 'KNOWLEDGE FOR LIFE'.

KNOWLEDGE FOR LIFE

# Utilidades: descargar citas

The screenshot shows a Windows Internet Explorer browser window with the address bar displaying <http://www.cabdirect2.org/citation.ris>. The browser's taskbar includes 'EndNote Web 2.6' and 'Capture'. The website content features the 'cabdirect' logo and a navigation menu with 'Home', 'Help', and 'Thesaurus'. A sidebar on the left contains 'Subscription Information' for 'Univ Complutense De Madrid' and a 'Log Out' button. A central dialog box titled 'Descarga de archivos' asks '¿Desea abrir o guardar este archivo?' for a file named 'citation.RIS' (RIS Formatted File) from 'www.cabdirect2.org'. The dialog has 'Abrir', 'Guardar', and 'Cancelar' buttons. A red line points from the 'Guardar' button to a text box that reads: 'Guardamos el archivo con las citas, para luego abrirlo con un Gestor bibliográfico'. The Windows taskbar at the bottom shows 'Inicio', 'Microsoft PowerPoint...', 'Conexiones de red', 'Download Citation - C...', 'Descarga de archivos', and system icons including 'Norton' and the time '6:26'.

# Utilidades: enviar citas por email

The screenshot displays the CAB Direct website interface. At the top, there is a navigation bar with the CAB Direct logo and the URL www.cabi.org. Below the navigation bar, there are links for 'About CAB Direct', 'Tell us what you think', and 'Contact Us'. The main content area is divided into several sections:

- Subscription Information:** A sidebar on the left containing user information for 'Univ Complutense De Madrid' (IP 147.96.0.0/16) and a 'Log Out' button. Below this is a 'Welcome, cmserrano' message with links to 'Go to MyCABDirect' and 'Edit your profile'.
- Refine Results:** A section on the left with a 'Refine your search.' prompt and a list of filters: 'Specific Topic' (dogs (8), lung diseases (8), respiratory diseases (8), cats (6), diagnosis (5)), 'Subject Category' (CABICODE), 'Year of publication', 'Source Title', 'Full Text', and 'Your Subscriptions'.
- Search Results:** The central area shows a search query: 'do:(small animal AND exotics) AND author:(rozanski) AND yr:[2005 TO 2009]'. It indicates 'Search results: returned 9 results'. Below this are two boxes for 'Related Searches for exotics introduced species' and 'Related Searches for animal animals'. The results list shows '1 to 9 of 9 results' and 'Show me: most relevant most recent'. The first result is: '1 Effective oxygen support. Rozanski, E.; The North American Veterinary Conference, Gainesville, USA. Small animal and exotics. Proceedings of the North American Veterinary Conference, Volume 22, Orlando, Florida, USA, 2008, 2008, pp 1468-1469'. A red box highlights the text 'Seleccionamos los registros que nos interesan y pinchamos en Email selected records' over the first result.
- Tools:** A sidebar on the right with an orange background containing utility options: 'Save this search', 'Create an email alert', 'Save selected in MyCABDirect', 'Search History', 'Print selected records', 'Email selected records', and 'Download Citations'.
- About CAB Direct:** A light blue box at the bottom right with the text: 'About CAB Direct Over 8 million bibliographic and full text applied life science articles hand picked by our team of experts and updated weekly.'

### About CAB Thesaurus

The CAB Thesaurus is the essential search tool for all users of the CAB ABSTRACTS™ and Global Health databases and related products. The CAB Thesaurus is not only an invaluable aid for database users but it has many potential uses by individuals and organizations indexing their own information resources for both internal use and on the Internet

in constant use since 1983

- Regularly updated (current version released January 2009)
- Broad coverage of pure and applied life sciences, technology and social sciences
- Approximately 96,000 terms, including 64,000 preferred terms and 32,000 non-preferred terms
- Specific terminology for all subjects covered
- Includes about 62,000 plant, animal and microorganism names
- Broad, narrow and related terms to help users find relevant terminology
- Cross-references from non-preferred synonyms to preferred terms
- Multi-lingual, with Spanish and Portuguese equivalents for most English terms
- American and British spelling variants
- Relevant CAS registry numbers for chemicals
- Commission notation for enzymes

### About CABI

CABI is a not-for-profit science-based development and information organization. We improve people's lives by providing information and applying scientific expertise to solve problems in agriculture and the environment. Our mission and direction is influenced by member countries who help guide the activities undertaken. These include scientific publishing, development projects and research, and microbial services.

# Thesaurus

The screenshot shows the CAB Thesaurus 2009 website. The header is green with the title 'CAB Thesaurus 2009' and the CAB logo. Below the header are navigation tabs: 'Home', 'All terms A-Z', and 'Browse by subject / category'. The main content area is divided into three columns. The left column contains search filters: 'Search Thesaurus :', 'Language' (English), 'Search type' (terms begin with text), 'Results format' (simple term list), 'Terms per page' (25), 'Match terms \*' (Equal or Greater), and 'Term type \*' (Any). The middle column shows 'All terms A-Z' and a list of search results for 'thromboembolism', including related terms like 'thrombogenic diet', 'thrombolytic', and 'thrombotic thrombocytopenic purpura'. The right column shows the 'Search string' box containing 'thromboembolism' and buttons for 'Send to CAB Direct', 'Send to Google', and 'Send to Yahoo!'. Two red callout boxes provide instructions: the first points to the 'add' button next to 'thromboembolism', and the second points to the 'Send to CAB Direct' button.

[Advanced Search](#)

## Guide to search

The search box, present on every page of CAB Direct, provides a convenient place from which to start your search. Searches can range from a single word to a complex search query that utilizes all the features of the supported search language.

### 1 Simple search

Typing terms into the search box will, by default, search for records that contain your search term(s) in any of the indexed fields in a database record. This includes:

- Title: (ET=English Title and FT=Non-English Title)
- Author: (AU=Personal Author, AV=Author Variant, ED=Editors, AD= Additional Authors and CA=Corporate Author)
- Abstract: (AB)
- Descriptors: (DE)
- Organism Descriptors: (OD)
- Geographic Location: (GL)
- Broad Terms: (BT)
- Identifiers: (ID)
- Conference Title: (CT)
- ISSN: (SN)
- ISBN: (BN)
- DOI: (OI)
- Record number: (PA)

### 2 Words, phrases and terms

A search query may be broken up into terms and operators.

There are two types of term: Single Word Terms and Multi-Word Phrases.

**A Single Term** is a single word such as cat or dog.

Multiple words, when entered into the search box, are treated as Single Terms and combined with an "invisible" AND.
