

LANGUAGE LEARNING & TECHNOLOGY

<http://lt.msu.edu/default.html>

Language Learning & Technology is a refereed journal which began publication in July 1997. The journal seeks to disseminate research to foreign and second language educators in the US and around the world on issues related to technology and language education.

Language Learning & Technology is sponsored and funded by the University of Hawai'i National Foreign Language Resource Center (NFLRC) and the Michigan State University Center for Language Education And Research (CLEAR), and is co-sponsored by the Center for Applied Linguistics (CAL).

Language Learning & Technology is published exclusively on the World Wide Web. In this way, the journal seeks to (a) reach a broad audience in a timely manner, (b) provide a multimedia format which can more fully illustrate the technologies under discussion, and (c) provide hypermedia links to related background information.

Editors: Dorothy Chun, University of California, Santa Barbara; Irene Thompson, The George Washington University (Emerita). Associate Editor: Richard Kern, University of California, Berkeley. Managing Editor: Hunter Hatfield, University of Hawai'i. For Editorial Board, see <http://lt.msu.edu/board.html>.
